**Re: Peanut Free/Tree Nut Free Statement of Guarantee**

**December 2, 2013**

**Dear Customer,**

As you are well aware there are a variety of foods that can cause adverse allergic reactions in hypersensitive individuals. *Wowbutter Foods is in the business of growing, manufacturing, marketing and selling foods that are 100% peanut and Nut Free.* We at Wowbutter Foods operate our manufacturing facilities as 100% peanut and tree nut free for all of our products produced.

The focus of this letter is to ensure that the ingredients and materials used in our facilities are all *100% peanut and tree nut free*, thus eliminating the risk of contamination to our facility. This risk of contamination is not limited to the ingredient or material itself but also the facility in which these materials are manufactured or stored. This includes ensuring that no food or drink is allowed in the manufacturing area and that all employees wash their hands each time they enter or re-enter the manufacturing area.

We go above and beyond what is necessary to ensure the integrity of our peanut allergic and tree nut allergic products for our customers. Please consider this letter our commitment confirming that all of the products produced at our Staffa, Ontario facility are made in a facility free of *peanuts and tree nuts*.

Regards,

Scott Mahon  
Quality Director
