# The Preferred Peanut Free Spread with a Taste and Texture You Already Know and Love!

Our innovative WOWBUTTER was designed for all families and developed to help protect the millions of kids and adults who suffer from life threatening peanut and nut allergies. It was also developed to nourish the tens of millions of non-allergic consumers & school kids that need healthy breakfast & lunch solutions. It's not just for kids, adults love it too - some even better than peanut butter due to its great toasted taste. It's the perfect complete protein source for everyone!

## Perfect for school lunches

Using WOWBUTTER in schools and classrooms solves the difficult problems that have risen when peanut free policies are implemented. Now Moms & Dads no longer have to struggle with what to pack in their kid's lunch box. Many kids do not like sandwich meats, which results in limited options for lunches. Everyone can feel good about using WOWBUTTER because they are providing a nutritious lunch while keeping kids safe, happy and nourished!

## School Lunch Identification

We also recognize the need for lunch identification and co-operation between parents, caregivers and schools regarding the contents of school lunches and assurance that school peanut free and nut free policies are followed. To accomplish this, we have developed a special jar label that contains lunch identification stickers with the jar as shown in the picture. The top of the jar label peels off to reveal these bright yellow stickers which are easily identified by school officials. Parents and caregivers use these convenient stickers when sending our Peanut Free WOWBUTTER to school. Each jar contains many stickers for multiple school lunches.
